

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

## THE SPARKLER: SERIES AO – BQ

As an OEM version, these polish cup wheels are used on Busetti machines. A polyurethane bond encloses the regular aluminium oxide resulting in perfect gloss.

## EDGE PROFILES

Flat glass and arris

Miter 45°

Bevel

Laminated safety glass (LSG)

## MACHINES

OEM Busetti

## TOOL

Product : ARTIFEX AO - BQ5  
Bonding : Foamed polyurethane  
Grain : Aluminium oxide  
40 | 60 | 80  
Hardness : Medium elastic  
Colour : According to grain size  
Delivery form : Cup wheels with plate  
Dimension : Ø 150 - 170 mm

## COLOUR CODE

Blue 40  
Green 60  
Red 80

## RESULT

Perfect high gloss

## ADVANTAGE

Guarantees optimum stability in any process position due to the solid backing plate.

As an OEM version, these cup wheels are perfect for Busetti machines

## LSG

We offer this product series segmented with 3-mm or 5-mm slots for perfect laminated glass processing. Your advantage: no clogging of the cup wheels, no sticking of foil on the glass edges.

This is how easy it is to process laminated glass.
