

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

THE VERSATILE ONE: SERIES BK – PR

A balanced mixture of aluminium oxide in a durable polyurethane bond ensures versatile applicability. These full material cup wheels have the optimum price/performance ratio.

EDGE PROFILES

MACHINES

Single and double edger machines

TOOL

Product : ARTIFEX BK - PR
 Bonding : Foamed polyurethane
 Grain : Pumice, Aluminium oxide
 40 | 60 | 80 | 120
 Hardness : Medium elastic
 Colour : According to grain size
 Delivery form : Full material cup wheels
 Rings
 Dimension : Ø 75 - 170 mm

COLOUR CODE

Blue	40
Green	60
Red	80
Yellow	120

RESULT

Good gloss

ADVANTAGES

Long service life
 Universally applicable
 Low tool costs

LSG

We offer this product series segmented with 3-mm or 5-mm slots for perfect laminated glass processing. Your advantage: no clogging of the cup wheels, no sticking of foil on the glass edges. This is how easy it is to process laminated glass.
