

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

THE GLOSS EXPERT: SERIES CE

Brilliantly white cerium oxide with an extremely fine grain is embedded in elastic resin, a rubber or polyurethane bond, depending on the application, for the best gloss possible.

TOOL

Product :	ARTIFEX CE - U
Bonding :	Resin
Grain :	Cerium oxide
Hardness :	Hard elastic
Colour :	Grey
Delivery form :	Peripheral wheels
Dimension :	Ø 20 - 300 mm

RESULT

Perfect high gloss

Not all edges are alike. The type of glass, the thickness and the glass profile determine the tool.

ARTIFEX offers the right polisher for any edge. The classic polishing cup wheels and disks by ARTIFEX already result in an outstanding industry gloss.

Afterwards, the cerium oxide products of the CE series provide the perfect high gloss.

The ARTIFEX promise

We stand for tools that guarantee the highest quality standards. All ARTIFEX products are „**Made in Germany**“ and their above-average service life speaks for itself.

Our service: You have individual requirements, we offer customised solutions regardless of the material, shape or dimensions. We will gladly advise you on your premises.
